## WARNING - SHOCK HAZARD

Remove wallplate.
 Remove the switch mounting screws.
 Carefully remove the switch from the switch box. DO NOT disconnect the

wires.
There are up to five screw terminals on the switch; these are marked:
A. GROUND — Green/Bare
B. LINE or LOAD — Black (connected to power or lighting)
C. LINE or LOAD — Black (connected to power or lighting)

D. TRAVELER — Red/Other (only in 3-way installations)
E. NEUTRAL — White
Match these screw terminals to the wires connected to the existing switch.
Disconnect the wires from the existing switch. Label wires according to the
previous terminal connection.

Observe important wiring information IMPORTANT! This switch is rated for and intended to only be used with copp Wire gauge requirements
Use 14AWG or larger wires suitable for at least 80° C for supplying line (hot), load, neutral, ground and traveler connections.

Basic operation
The connected light can be turned ON/OFF in two with Manually from the front panel of the switch.
2. Remotely with a Z-Wave controller.

4.

To remove and reset the device

1. Follow the instructors for your Z-VNave certified controller to remove a device from the Z-VNave reletwork.

2. Once the controller is ready to remove your device, press up and release the toggle to remove it from the network.

Z-WAVE INTEROPERVALUE.

This product can be included and operated in any; network with one Z-Wayev certified devices from remuladatures analist other applications. All non-this operated models within the interview of the star in page regardless of vendor to interest entablity of the ref

ice to a Z-Wave network: uctions for your Z-Wave certified controller to add a device to the

so add if in the network.

Please reference the controller's manual for instructions.

New you have complete controller by manual for instructions.

New you have complete control to turn your fisture ON/OFF or dim according to groups, seenes, schedules and interactive automations programmed by your controller. If your Z-Wave certified controller features remote access, you can control your fixture from your mobile devices.

To return your switch to factory defaults: Quickly press ON (up) button three times, then immediately press the OFF (down)
